Settlement of Accounts for the 2nd Quarter of the Fiscal Year Ending March 2024

2nd Quarter of the Fiscal Year Ending March 2024 (April 1, 2023 - September 30, 2023)

Acquired demand stably in IT Infrastructure Distribution Business and both sales and profit increased
2nd-largest first-half net sales ever

IT Infrastructure Distribution Business

We acquired medium to large-sized IT investment projects centered on companies and government offices based on smooth communication with partners due to being community-based and exceeded the results for the previous fiscal year.

Sales of subscription products through iKAZUCHI also remained strong.

In the consumer market, sales decreased due to the stagnation of personal spending, but profit increased due to improved profitability.

Fiber Business

Non-woven fabric products remained steady and functional rayon was strong, but due to a delay in the recovery in demand for cartridge filters for the electronic parts industry and the impact of high raw material and fuel prices in business overall, we struggled in terms of profits.

Industrial Machinery Business

Sales to the energy industry, where there is demand for high-efficiency turbines, were strong, resulting in increased sales and profits, and demand in the aircraft industry was on a recovery trend.

Cumulative Net Sales for the 2nd Quarter of the Fiscal Year Ending March 2024

Net sales **445,917** million yen

+**9.0%** against the same period of the previous fiscal year

Progress rate **101.7%** for 1st half / **46.0%** for full-term

2nd-largest first-half net sales ever

* The progress rate for the full-term is progress against the revised results forecast.

* See p34 with regard to the application of the "Accounting Standard for Revenue Recognition"

Cumulative Operating Profit for the 2nd Quarter of the Fiscal Year Ending March 2024

Operating profit **12,792** million yen

Against the same period of the previous fiscal year
+ **16.7%**

Operating profit margin **2.9%**

Progress rate **102.8%** for 1st half / **41.7%** for full-term

Summary of the Consolidated Settlement of Accounts for the Cumulative 2nd Quarter of the Fiscal Year Ending March 2024

(Million yen)	2023/3 2Q	2024/3 2Q	Change	Compared to previous term	Revised full-year forecast	Progress rate

1,378,000 units (-4.7% compared to previous term)

Number of servers shipped

25,000 units (-9.8% compared to previous term)

Subscription handling volume

48,954 million yen (+17.8% compared to previous term)

iKAZUCHI handling volume

13,743 million yen (+42.9% compared to previous term)

Review of the business

Corporate market

- Sales of PCs, servers, services and support to companies and government offices were strong and we acquired medium to large-size IT investment projects stably so results exceeded those of the previous fiscal year. Contracts for subscription products through iKAZUCHI also remained strong.
- This fiscal year in the education market is one of declining introductions of terminals for elementary and junior high schools, with demand for terminal purchases for teachers also settling down, and results were below those for the previous year.

Consumer market

- Sales to both mass retailers and EC declined due to market stagnation, but profit increased due to the improvement of PC, monitor and printer profitability.

Domestic PC Market Share and Product Category Composition

Trend in full-term PC share

The company is involved in **at least one out of every three PCs** for corporate use

Trend in 1st half results

Domestic PC market share

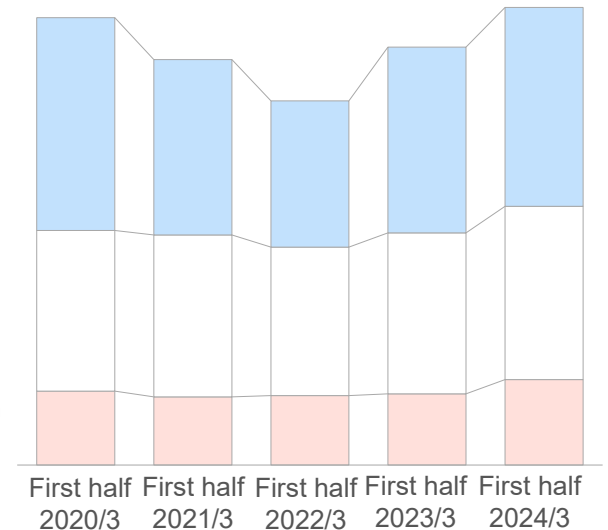

For corporations **34.4%**
Overall **25.5%**

Transaction volume by DIS category

Compared with previous year

PC main units*	+7.1%
Peripherals, services, etc.	+7.6%
Software	+20.2%

* Calculated based on the results of a survey by MM Research Institute
(As the figure for the first half 2024/3 is based on the survey company's preliminary results, the official figure for share may change)

*PC main units = the main terminal unit of a PC, server, tablet, smartphone, etc.

Results for Subscription Business

Subscription handling volume (DIS only)

First half 2023/3

41,546

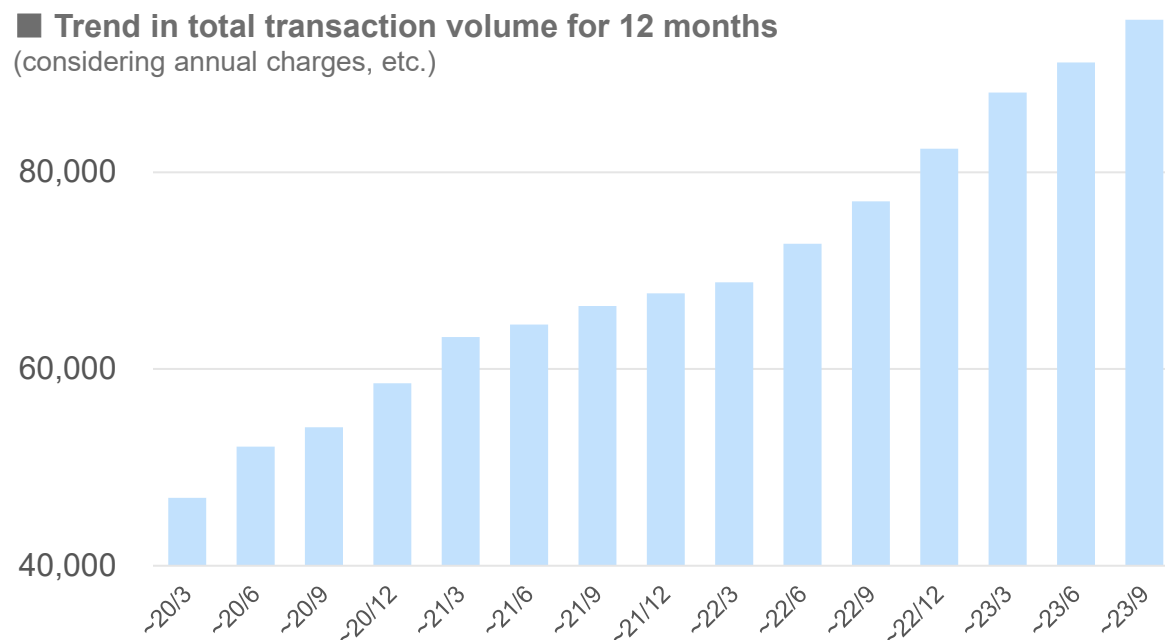

+17.8%

First half 2024/3

(2023/3)

120 vendors
231 services
(2023/9)

Expand the subscription business market and
strengthen the “foundations” of ongoing revenue

(Million yen)

Net sales

29,679 million yen (-5.3% compared to previous term)

Operating profit

620 million yen (-13.7% compared to previous term)

Review of the business

Synthetic Fibers and Rayon Divisions

- Sales of antiperspirant sheets and cosmetics remained steady, and functional rayon was also strong, but sales and profits declined due to the sluggish recovery in demand for building materials for the United States and high raw material and fuel prices.

Industrial Material Division

- The recovery in demand for cartridge filters for the electronic parts industry was delayed significantly, but sales and profit increased due to sales of construction sheets, belt-related products and rubber sponges remaining steady.

Clothing Products Division

- Profits increased because the profitability of domestic apparel improved due to the recovery of orders and the penetration of price revisions.

	2021/3 2Q	
	Impact	When impact is excluded
Net sales	-640 million yen	31,819 million yen
Operating profit	-1,994 million yen	1,800 million yen

Industrial Machinery Business

(Million yen)

■ Net sales ■ Operating profit ■ Operating profit margin

Net sales

6,680 million yen (+**15.1%** compared to previous term)

Operating profit

521 million yen (+**19.0%** compared to previous term)

Review of the business

Machine Tools Division

- Total orders received from April to September as reported by the Japan Machine Tool Builders' Association decreased 17.7% compared to the previous term, and the Chinese wind power industry, which was booming, entered an inventory adjustment phase and orders decreased 7.7% compared to the previous term.
- Sales and profit increased due to strong shipments to the Chinese wind power industry, orders for which were received in the previous fiscal year, and there were also sales of large equipment to the United States.
- Demand in the aircraft industry is on a recovery trend, with an increase in the number of inquiries.

Automatic Machinery Division

- Although sales increased due to shipments remaining steady while orders decreased 6.9% compared to the previous fiscal year, profits declined due to the impact of soaring material prices, etc.

Consolidated Balance Sheet for the 2nd Quarter of the Fiscal Year Ending March 2024 (Summary of Accounts p4-5)

Focus Measures in IT Infrastructure Distribution Business

(Million yen)

Acquisition of share in each category in IT device distribution

- Strengthening of information collection for partners to acquire PC update demand
- Strengthening of IT equipment lineup and handling of diverse forms of purchasing
- Improvement of market share in the education market through the use of terminals, the promotion of STEAM education, etc.

Implementation and strengthening of high-level support functions

- Strengthening of the support system for increasingly sophisticated IT infrastructure and deepening of cooperation with core manufacturers
- Expansion of original services and promotion of ATS cooperation

Branding as a cloud distributor

- Functional expansion of iKAZUCHI and strengthening of branding
- Expansion of market share in the megacloud market by promoting cloud shift proposals

Productivity improvements in the supply chain as a whole

- Continuous investment in information systems, such as the strengthening of sales activities by use of RPA and BI tools, and support for tactical development by use of SFA
- Promotion of low-cost operations through the use of e-commerce

■ Net sales ■ Operating profit ■ Operating profit margin

Reform into a company satisfying to work at centered on ESG

- ▶ Thorough implementation of compliance management by systematizing the work flow and strengthening the audit and check system focusing on actual sites
- ▶ Establishment of an environment that is easy to work in by reviewing personnel systems, introducing new systems, expanding employee education, etc.

Strengthening of the development of unique materials based on the deep plowing of fiber strategy

- ▶ R&D activities that grasp “the company’s strengths” and “opportunities” through the group’s cross-business research system to create products that will become the pillars of the next generation.
- ▶ Contributions to a sustainable society through the creation of environmentally conscious products based on the company’s core technologies

Business activities conscious of invested fund efficiency

- ▶ Effective investment in new growth opportunities for the improvement of corporate value
- ▶ Strengthening of the development of new customers and applications for sanitary materials and priority allocation of management resources for the development of overseas markets for functional rayon, etc.

Focus Measures in Industrial Machinery Business

(Million yen)

Business expansion into potential markets in machine tools

- ▶ Increase inventory of general-purpose machinery in Japan, the United States and China, and start planned production of the RT-915 series of small machinery this fall.
- ▶ Eliminate opportunity losses to meet customer needs for short delivery and prompt delivery
- ▶ Strengthening of sales activities for overseas markets in the aircraft industry

Capture of demand for packaging machine automation in automatic machinery

- ▶ Renew and promote sales of continuous cartoners for the food and confectionery industry and intermittent cartoners for the pharmaceutical industry
- ▶ Cost reductions by strengthening overseas procurement
- ▶ Strengthen service systems and improve competitiveness in the Chinese market

Improvement of profitability by strengthening services

- ▶ Continuous strengthening of service structure by strengthening alliances with external service companies
- ▶ Improvement of customer satisfaction by raising the level of young sales employees and engineers through internal education aimed at the expansion of services

| State of Key Considerations for the Formulation of the Next Medium-Term Management Plan

Key Considerations for the Next Medium-Term Management Plan

Ahead of the formulation of our next medium-term management plan scheduled for announcement in May 2024, we have arranged the key considerations and the consideration system.

We have redefined the group's reason for existence as its “purpose” and are currently promoting its inclusion in management plans.

Considerations	Overview	Current status
The establishment of a company-wide purpose and the formulation of a growth strategy	<ul style="list-style-type: none"> ■ We will identify the group's identity and establish a purpose based on social trends and the DNA of our corporate organization. ■ We will formulate a growth strategy from the perspective of what to make the core of the company and how to maximize profitability from that starting point and realize the social significance of the company. 	<ul style="list-style-type: none"> ■ We formulated the new group purpose and released it along with our value creation process in the integrated report published in November 2023. ■ Based on the formulated purpose, we are currently considering growth strategies while verifying growth areas and the added value that the company provides. <p>* The group's purpose is on the next page.</p>
Establishment of the optimal business portfolio for the maximization of the corporate value of the group as a whole	<ul style="list-style-type: none"> ■ We will establish the optimal business portfolio by implementing strategic options at the appropriate time for the maximization of corporate value after verifying the best owner principle, evaluation of the business environment and capital profitability of existing business with reference to Practical Guidelines for Business Transformations formulated by the Ministry of Economy, Trade and Industry, etc. 	<ul style="list-style-type: none"> ■ We are currently considering making textile business independent from the group as a strategic option for the maximization of corporate value. <p>* We have started specific discussions with Daiwabo and will consider options that would contribute to increasing the value of textile business by a method appropriate for shareholders, employees, business partners, etc.</p>
Realization of the optimization of growth investment and shareholder returns	<ul style="list-style-type: none"> ■ We will formulate capital allocation policies aimed at the improvement of corporate value by realizing optimal growth investment and shareholder returns based on capital costs. ■ Optimization of the allocation of resources - people, things and money - and establishment of a capital policy that can maximize returns to shareholders. 	<ul style="list-style-type: none"> ■ With regard to the policy for the allocation of the revenue generated by each operating company, we are currently considering capital allocation aimed at the maximization of the profitability of the group overall, rather than prioritizing only growth investment for expansion of the results of each respective business.

Currently ongoing

Currently ongoing

purpose

Connecting people and society to the future with our value chain

We believe that the purpose of the group's existence is to connect and link people in business, companies, and local communities in the value chain that consists of various social activities. We will demonstrate our collective strength by focusing on partnership, branding the entire value chain, and organically collaborating and cooperating with others to address social issues that would be difficult to solve by our group alone.

Also, "Connection to the future" expresses our determination to realize a future with comfort, safety and security, and happiness for people and society. We are aiming to achieve this by constantly exploring and experiencing new technologies through the promotion of diverse advanced IT products and services and through the quest of research and development that can contribute to daily life and many industries, and by feeding back those technologies to our value chain. We will not only support the infrastructure of modern society but also make a wide range of contributions to creating a more comfortable future society by catching changes in the business environment and values.

Looking ahead to 2030

■ Revenue recognition related to agency transactions

Because the role of the company in the provision of product and services to customers in regard to **some transactions such as sales of maintenance and warranty services and software (ongoing billing, etc.)** in IT Infrastructure Distribution Business falls under the category of “**agent**” in the accounting standard, the method for revenue recognition will change.

[Old standard]: Record sale of the **total amount** of sales consideration (A)

[New standard]: Record sale of the **net amount** of sales consideration (A-B)

Transaction volume

Transaction Volume

- ❑ Calculated under the same standard as net sales up to the fiscal year ended March 2021
(= net sales prior to the change in the accounting standards)
- ❑ Continuing to use as “transaction volume” to make an important index in presenting the scale of transactions
- ❑ Sales evaluations in management accounting

“Accounting Standard for Revenue Recognition”

Impact of application
(From 2022/3)

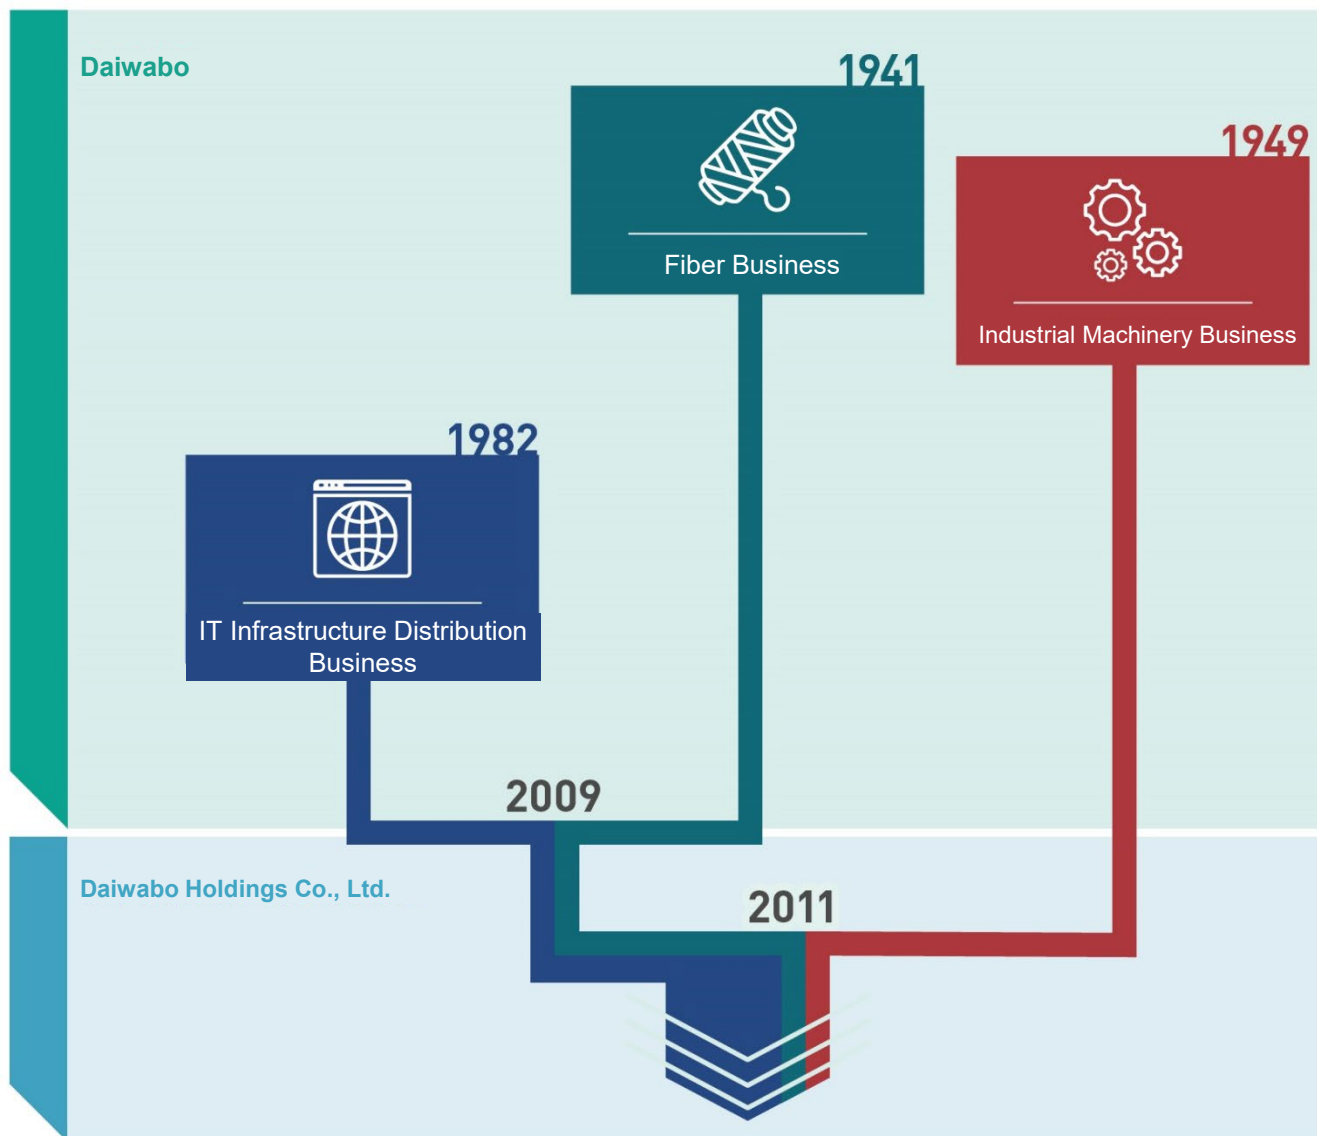

The company records as net sales the net amount of sales consideration for “agency transactions” under the accounting standards for some maintenance and warranty services, software sales due to iKAZUCHI, etc.

Net sales

Net Sales

- ❑ Net sales from the fiscal year ended March 2022
- ❑ Sales evaluations in financial accounting

Group History

- 1941. 4** **Daiwabo** is established through the merger of four companies: Kinka Boseki, Hinode Boshoku, Izumo Seishoku, and Wakayama Boshoku.
- 1949. 5** ▶ Daiwabo is listed on the First Section of the Tokyo Stock Exchange
- 1949. 7** Daiwabo spins off its Shinji Plant to establish Daiwa Machinery Co., Ltd. (currently **O-M Ltd.**).
->Subsequently, Daiwa Machinery Co., Ltd., merges with Osaka Kikai Seisakusho, a manufacturer of machine tools and spinning machines, for O-M Ltd. to be born in 1960.
- 1971.11** ▶ O-M Ltd., is listed on the First Section of the Tokyo Stock Exchange.
- 1982. 4** As part of new business development, Daiwabo established **DAIWABO INFORMATION SYSTEM CO., LTD., (DIS)** to advance into information-related business.
- 2000. 9** ▶DIS is listed on the First Section of the Tokyo Stock Exchange.
- 2009. 3** Daiwabo Co., Ltd. and DIS integrated their management structures.
- 2009. 7** Daiwabo changes its name to **Daiwabo Holdings Co., Ltd.** and newly establishes **Daiwa Spinning Co., Ltd.** as the core company in its Fiber Business
- 2011. 7** Daiwabo Holdings Co., Ltd. and O-M Ltd. integrated their management structures. => **Formed the current structure with 3 core businesses**

Overview of Business Segments

IT Infrastructure Distribution Business

Japan's largest distributor of IT-related products

It has a large network of business partners through sales activities at 94 locations nationwide with strong ties to local communities

As an independent multi-vendor company that does not specialize in specific vendors, it sells products and services of approximately 1,400 vendors around the world including PCs

Fiber Business

Synthetic Fibers and Rayon Divisions

It offers fiber materials and products such as synthetic fiber cotton for use as hygiene materials including paper diapers, and highly biodegradable rayon

Industrial Material Division

It offers industrial fiber products such as industrial materials, filter products, civil engineering materials, heavy cloth products and rubber products

Clothing Products Division

It develops, manufactures and sells products such as various textile materials and functional innerwear, and manufactures and sells licensed brand clothing

Industrial Machinery Business

Machine Tools Division

It has high market share in the domestic manufacturing of “vertical lathes/turning centers,” machine tools mainly used by heavy industries such as the aerospace field

Automatic Machinery Division

It manufactures and delivers automated packaging and packing machines to a wide range of industries including food and medical products

Percentage of Sales Percentage of Operating Profit

(BY2022 results)

History of Daiwabo Information System (DIS)

1982 Founded DIS

- DIS started with only 10 staff by leveraging the knowhow with which Daiwabo Co., Ltd., developed a monitoring system for production sites in house using PCs.
- It shifted from system development and sales to sales of PCs and other information equipment.

1983-1984 Accelerated development of multiple offices

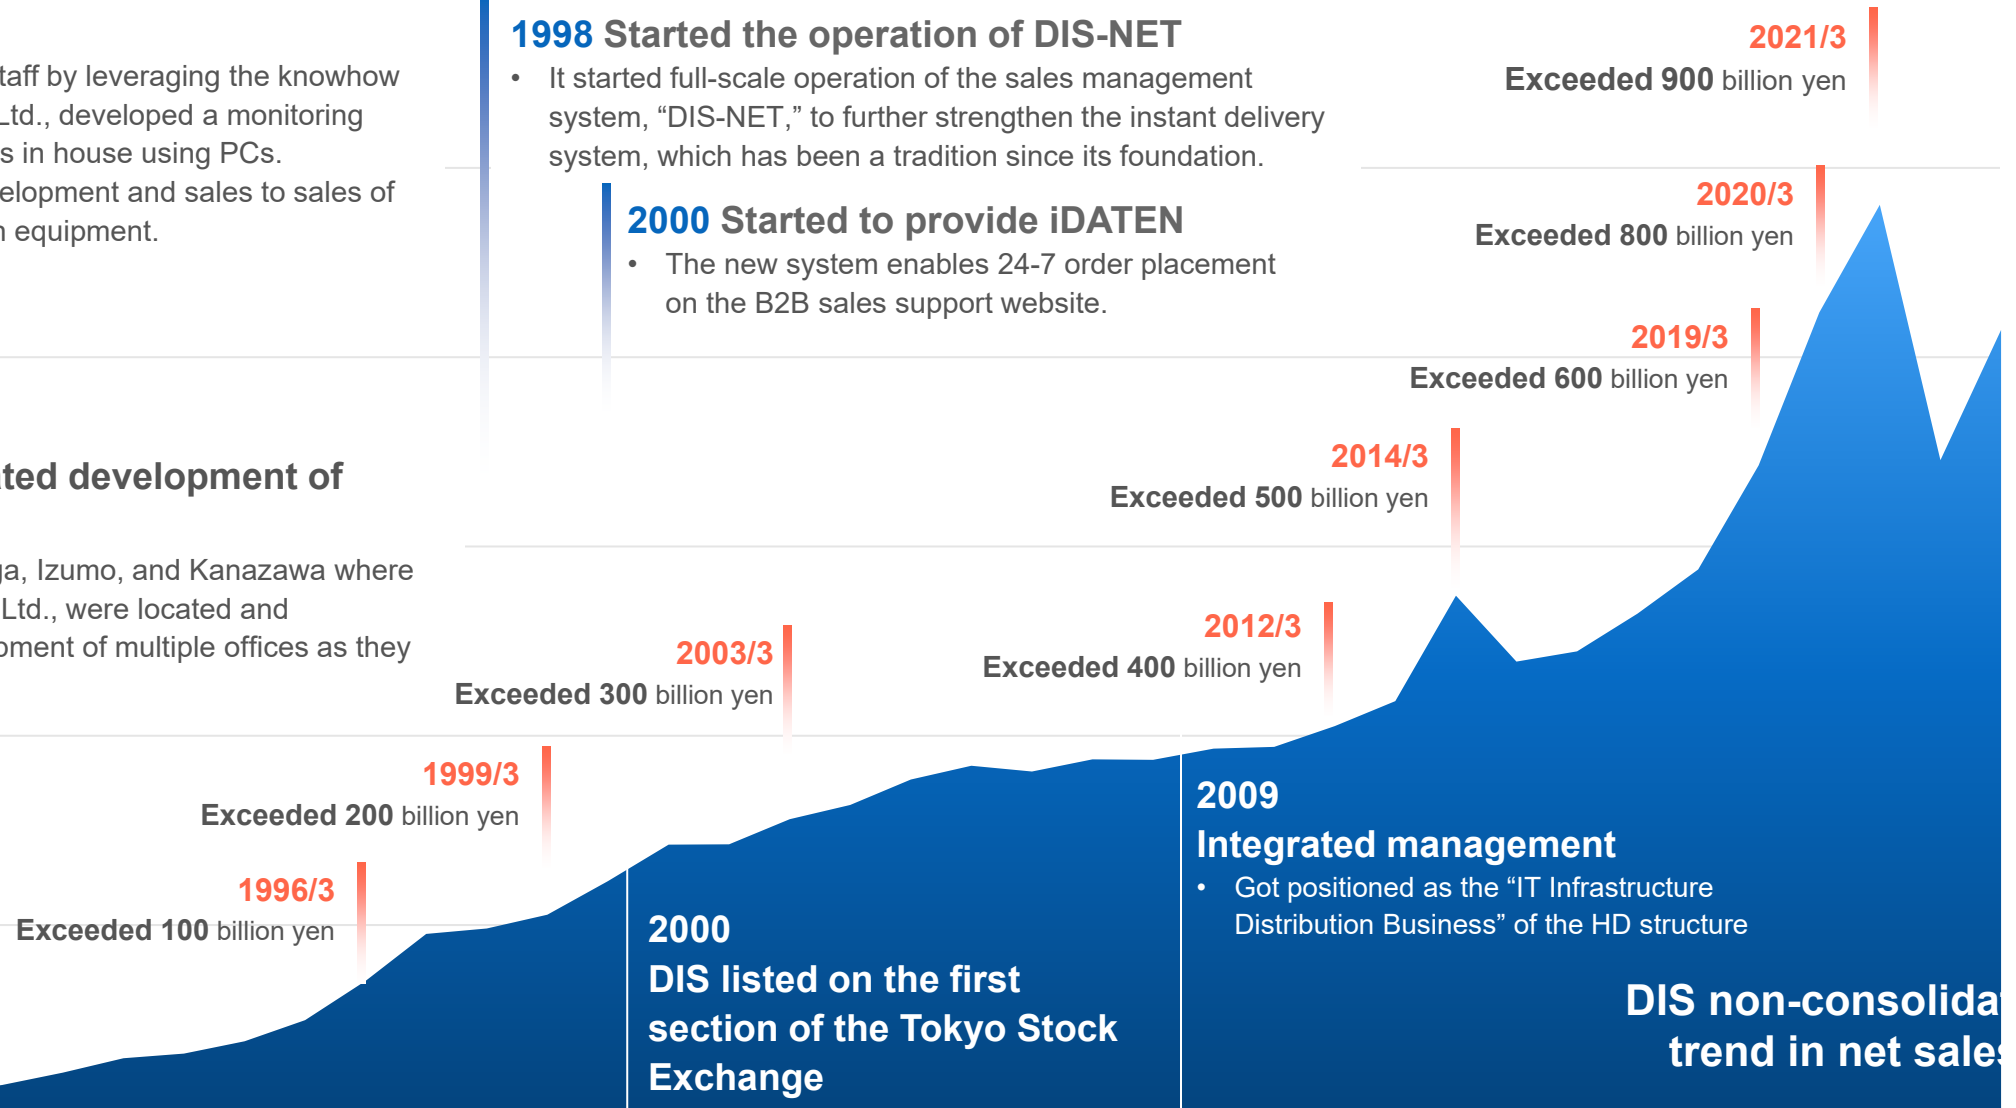

- It opened offices in Saga, Izumo, and Kanazawa where plants of Daiwabo Co., Ltd., were located and accelerated the development of multiple offices as they turned a profit early.

1998 Started the operation of DIS-NET

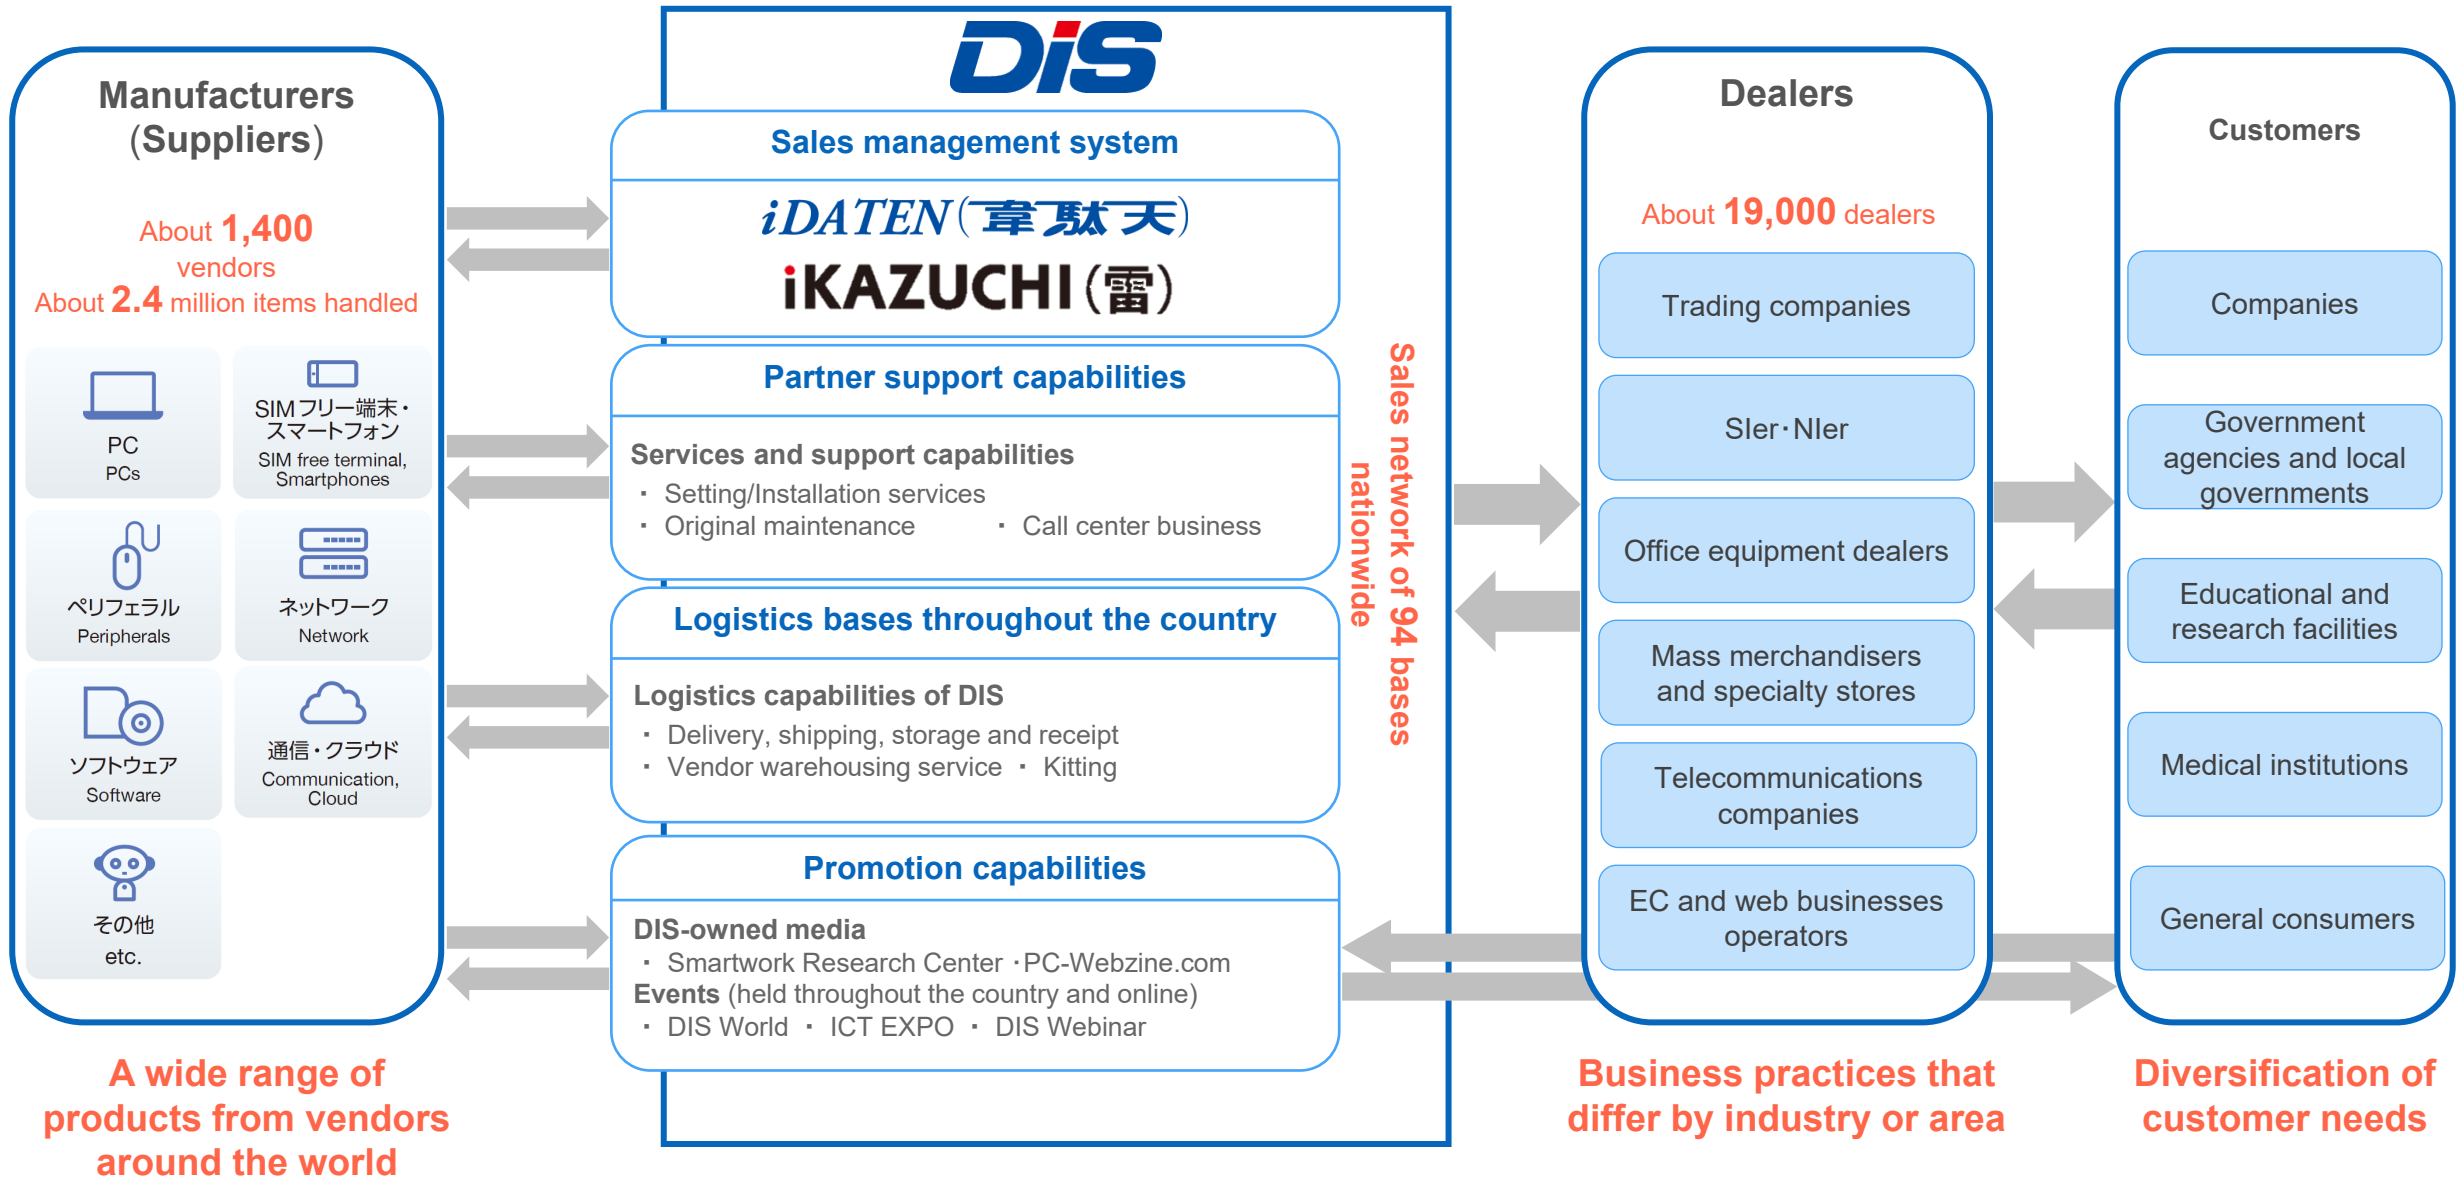

- It started full-scale operation of the sales management system, "DIS-NET," to further strengthen the instant delivery system, which has been a tradition since its foundation.

2000 Started to provide iDATEN

- The new system enables 24-7 order placement on the B2B sales support website.

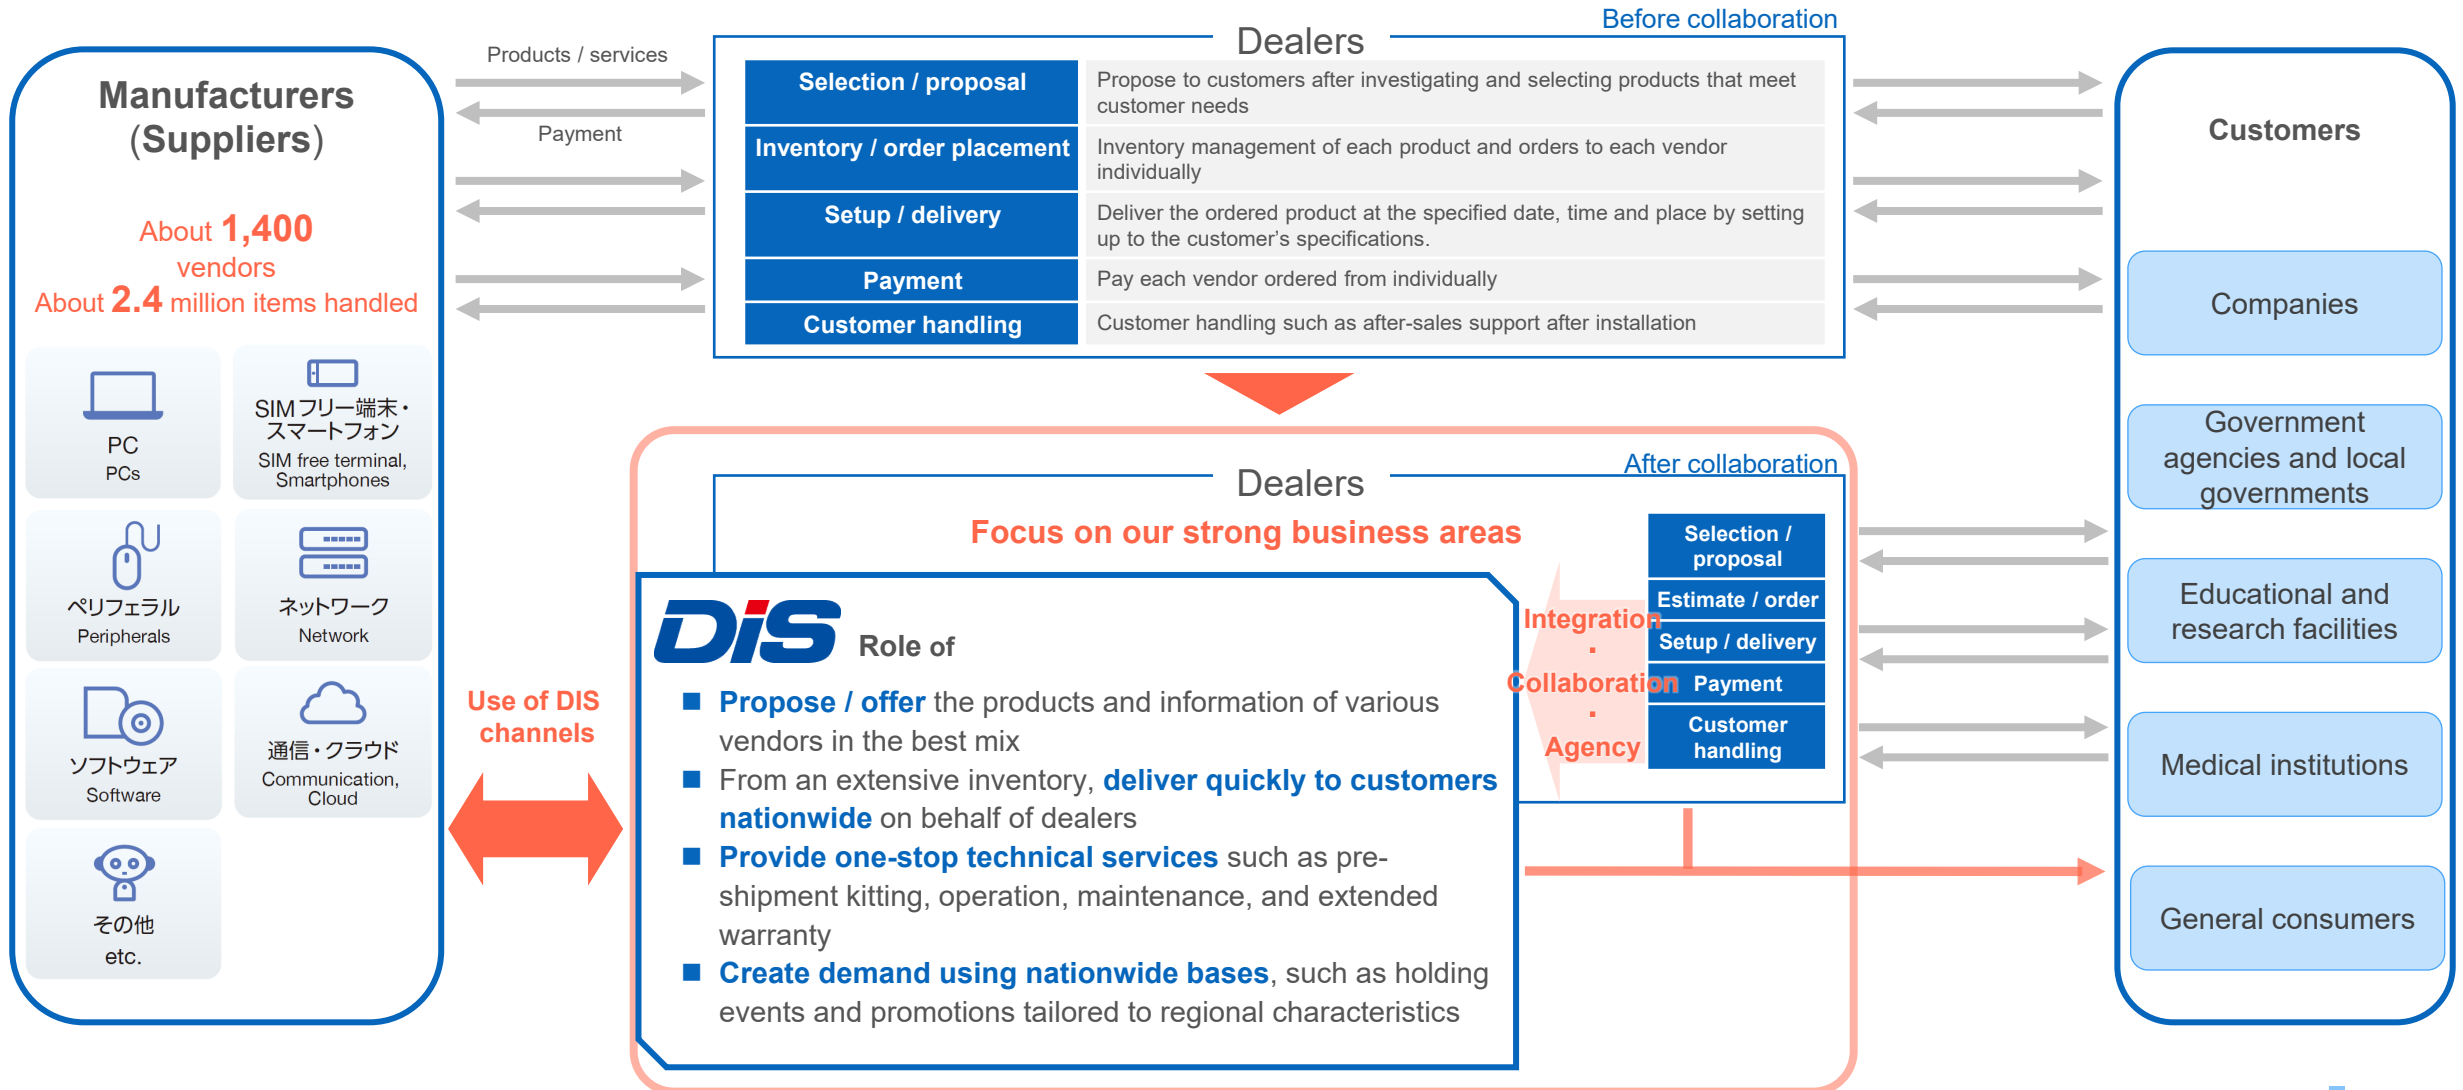

The Business Structure of IT Infrastructure Distribution Business

Value Added by Distributors

Dealers

Value Added by Distributors

Manufacturers
(suppliers)

Vendors

Before collaboration

Product development	Develop products and services based on customer needs through market analysis
Sales / promotions	Sales activities for individual customers and sales promotion activities for products and services
Order / production	Handling of orders from customers and production based on demand trends
Inventory / shipment	Inventory management of products and shipment to each sales destination
Billing / collection	Billing and collection of receivables from each sales destination

Dealers

About **19,000** dealers

Trading companies

After collaboration

Use of DIS channels

Streamlining of Distribution Centers

Kansai Center (Kobe City)

Full-scale operation in May 2020

Warehouse area: 36,342 m²

Kanto Central Center (Yoshimi-machi, Saitama Prefecture)

Full-scale operation in June 2016

Warehouse area: 44,753 m²

Robot storage system

-> Optimization of work efficiency and space
[Number of robots in operation]

Kanto Central: **45** robots; Kansai: **30** robots

Established together with Kitting Center

-> Arrival of goods > work > prompt handling of shipment

PCs and tablets : **180,000** annually (2023/3)
Kitting results

Truck reservation reception system

-> Sharing of incoming and outgoing information and vehicle equalizing

Focusing on improvements to efficiency and productivity centered on the east and west mega-centers

Greater Sales Efficiency and Low-Cost Operation

Results of the IT Infrastructure Distribution Business

* This is different from segment results because it does not reflect consolidation adjustments.

Strengthening of sales activities

Sales expansion based on tactics

Greater efficiency of routine work

Expansion of e-commerce ratio

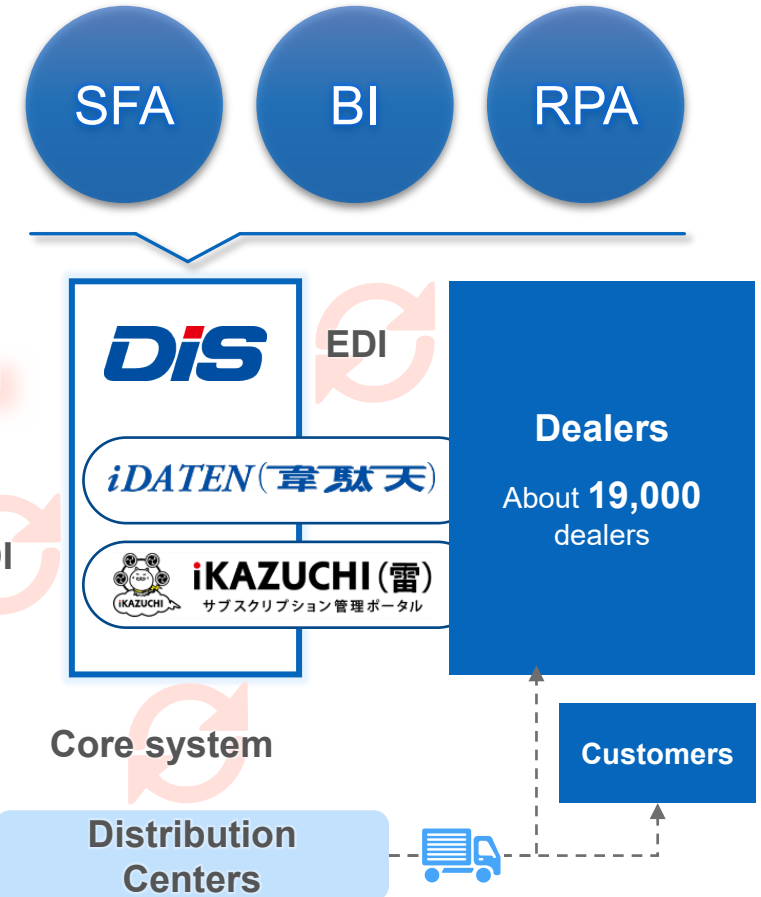

Productivity improvements including suppliers

Greater logistics efficiency

Control of logistics costs

Optimization of inventory locations

Ongoing system investment

Subscription management portal

Handling of billing formats including monthly, yearly or pay-as-you-go
Real-time management at the individual customer level

Integrated management of multiple services

Provision of information to end users

Supporting the subscription businesses of dealers nationwide

iKAZUCHI posting service

120 vendors / 231 services

(As of September 2023)

Collaboration

Business infrastructure and system infrastructure

Security and management

Design and creative work

Human resources

Sales and marketing

Dealers

Customers

Added value

- ✓ Streamlining of service issue and billing management through automatic cooperation, etc.
- ✓ Realize the handling of more customers through dealers
- ✓ Expansion of promotions

- ✓ Strengthening of proposal capabilities and competitiveness by the expansion of posted services and provided functions
- ✓ Building of ongoing contractual relationships
- ✓ Promotion of composite proposals by improving the efficiency of subscription sales

- ✓ Centralized management of multiple vendors and various billing formats
- ✓ Realize the handling of more customers with real-time contract management
- ✓ Expansion of sales by improving the efficiency of subscription sales

- ✓ Grasp the state of contracts for multiple services and implement license changes in an integrated way
- ✓ Aggregation of payment Destinations and payment timing
- ✓ Contributions to results through more efficient use of subscriptions

Establish a stable earnings base with iKAZUCHI

Trend in the number of registered dealers

Number of handling vendors

Trend in total transaction volume for 12 months (considering annual charges, etc.)

We use our “multi-vendor” strength to create added value that would not be possible with a single vendor

Products

Coordinate

Management

As a Company that Continues to Support all IT Businesses

Matching the **[diversification of customer needs]** and **[diversification of technology]** efficiently for **nationwide deployment**

**Evolve the partner business and build
a new business model that realizes customers' objectives using IT by combining "strengths"**

Fiber Business - Product Examples -

Synthetic fibers and rayon

- ❑ Synthetic fibers used in hygiene products such as paper diapers and feminine hygiene items
- ❑ Non-woven fabrics used for baby wipes, antibacterial sheets, face masks and other daily necessities
- ❑ Fibers that are used as an asbestos substitute and can self-heal mortar cracks
- ❑ Non-woven fabrics and clothing made using highly biodegradable rayon produced from wood pulp

Industrial materials

- ❑ Filters to filter impurities widely used in the chemical, electronic and food industries
- ❑ Civil engineering materials such as heavy fabrics used for truck tops and tent warehouses, waterproof sheeting and greening nets
- ❑ High-quality rubber sponge products used in a variety of purposes including automotive parts and home appliances
- ❑ Various industrial sheets such as soundproof sheets and curing meshes at construction sites

Clothing products

- ❑ Clothing products such as functional innerwear and comfortable outerwear
- ❑ Living materials and products
- ❑ Licensed brand clothing
"FILA" "NCAA" "T&C" "UMBRO"

[Fiber Business] Continuous Structural Reform

Daiwa Spinning

Strengthening of R&D functions

Integration of R&D systems in each field into Harima Laboratory

Industry-government-academia cooperation

Market needs

Core technologies / intellectual property

Environment

- Recycling
- Biomass / biodegradation
- Energy saving / weight reduction

Safety

- Fire-proof / flame-retardant
- Ground and cement reinforcement
- Adsorption of heavy metals and harmful substances

Material development based on 3 development keywords

Health

- Sterilization / anti-viral
- Water / air purification
- Skin-friendly materials

Consolidation of production bases

Completion of the relocation and consolidation of plants in Industrial Material Division

Build an integrated production system for filters with strong demand

Strengthening of governance

Improvement of capital efficiency

Reorganization of operating companies

April 2020

Daiwa Spinning Co., Ltd. becomes a core business company through the merger of business subsidiaries of each division

March 2021

Dissolution of Hong Kong subsidiary and closing of overseas offices

May 2021

Sorting out of non-fiber divisions (termination of hotel business)

September 2021

Sorting out of non-fiber divisions (reduction in scale of engineering business)

October 2021

Merger between subsidiaries of Clothing Products Division

March 2022

Transfer of shares of subsidiary of Clothing Products Division

June 2022

Transfer of shares of subsidiaries of Industrial Material Division (2 companies)

January 2023

Consolidation of sales offices of subsidiaries of Clothing Products Division

Industrial Machinery Business - Product Examples -

Vertical lathes/ Turning centers

- ❑ **No. 1 share in Japan** for both medium- and large-sized lathes (Cumulative shipments exceeded **7,500** units)
- ❑ Highly evaluated as "OM for vertical lathes" in Japan and overseas
- ❑ A machine that is used to cut a workpiece by attaching it to a horizontally rotating table. The table diameter ranges from 800 mm to 6,000 mm, and it can be used in a wide variety of production modes. Highly rigid, highly accurate and easy to operate, it is used as a mother machine in all fields including aircraft engine parts and wind power generation.
- ❑ The picture on the left shows the "RT-915," a small general-purpose machine

Wheel lathes

- ❑ A machine tool specifically used to maintain rolling stock. It contributes to improved railway safety and riding comfort
- ❑ **No. 1 share in Japan** for underfloor wheel lathes
- ❑ To start domestic production, we had a licensing agreement with Hegenscheidt which manufactured the first wheel lathe in the world and has an excellent delivery record around the world. The design, parts and software are all original

Automatic machinery

- ❑ We manufacture a wide range of automatic machinery including cartoners (cartoning machine), intermediate packaging machines for stacking and packaging products in film and corrugated cardboard casers (The picture on the left is a horizontal continuous cartoner)
- ❑ The strengths include technologies and creativity that allow us to flexibly respond to the needs of packaging processes in rapidly changing industries such as foods with short life cycles and remarkable diversification and pharmaceuticals with increasingly strict manufacturing standards
